STS Tire Sealant and Pumps

STS tire sealant offers an excellent preventive maintenance program against flat tires. When installed in all tire and wheel assemblies, it will seal injuries caused by puncturing objects measuring up to 1/4" (6.35mm) in size, rim and bead leaks, porosity leaks, vent hole leaks, and condition the tire innerliner or tube to prevent air loss for the life of the tire. STS tire seal will reduce downtime and operating costs associated with tire air loss.

16 oz.
Bottle

STS Tire Sealant

Designed as an all-purpose sealant, STS works well in many applications. It is a great fix for small or large tires. Eliminates repair time with preventative installation. Can be used in high RPM tires for off-road applications. Recommended Use: Lawn & garden, ATV, Ag, Short haul trucks.

Available in 16 oz, 1 gallon, 5 gallon and 55 gallon containers.

STS-OTR Tire Sealant

Designed with a lower viscosity to travel rapidly to tire injuries in large diameter low RPM applications. Great at stopping bead leaks and stubble damage in farm tires. For use at 30 MPH or slower. Recommended Use: Ag and OTR tires

Available in 1 gallon, 5 gallon and 55 gallon containers.

ST-XM-44

5 gallon Pump & Lid

ST-XM-1 1 Gallon Pump

Checkpoint Loose Wheel Nut Indicators

- A simple cost effective product that can help guard against a potential catastrophic loss caused by loose lug nuts when used as part of a total torque wheel program.

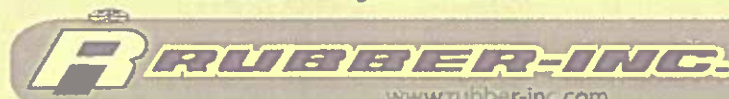

- If the arrows have moved from the point-to-point pattern, this indicates that they have loosened and need attention.
