## "The Block" Air Line Filter 281

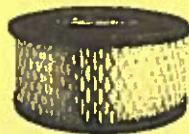

1/4" NPT

The Block is 100% protection from airline moisture and contaminants that destroy air operated equipment, tools, tires and rims. The Block will not allow moisture or water to pass through the replaceable element. The element does not absorb moisture, it blocks it. As the Block-Ade element becomes activated with moisture, it expands to block the passage of air. If the element becomes completely saturated it stops all movement of air and/or moisture. When the Block-Ade element becomes contaminated simply replace the element. Note: The Block should be used before the oiler since it blocks oil as well as moisture.

PART #	DESCRIPTION	PRICE EACH
CAM-BLK-50	The Block Complete (1/4" NPT)	\$39.95
CAM-BLK-ADE	Replacement Filter Element	\$8.63
