Adhesive Tape Weight Removal Plier

The Pliers **DO NOT** touch the alloy wheel.

The design of the jaws is to ensure that the gripping of the edges of the wheel weight do not grip under the adhesive weights and will not damage the rim.

The balancing weight leans on its own soft tape, therefore not damaging the wheel.

**Easily Remove Adhesive Tape Weights
WITHOUT Causing Scratches or Notches on Wheels!**

WHY USE VERSUS CONVENTIONAL TOOL?

- Using Screwdrivers or Knives can badly damage or scar the rim.
- Even a SMALL Scratch on rim can cause oxidation and completely destroy finish on the rim.
- Using a conventional plastic adhesive wheel weight scraper will WEAR-OUT quickly, causing the need to purchase much more throughout the year which is not effective.

PART #	DESCRIPTION	PRICE EACH
50144	Tape Weight Removal Plier	\$22.95
