TCX51CEN

- Includes WalkAway Mode

WHEEL BALANCERS

RFW00

Road Force® WalkAway™

- Faster tire changeovers with WalkAway™ inflation
- Quick Road Force® testing and balancing
- Helps eliminate vibrations for a smoother ride
- Automatic wheel measurement and centering
- SmartWeight® technology improves efficiency
- Built-in TPMS and performance tracking tools

SWP70

Smart Weight Pro® Wheel Balancers

Key Features at a Glance:

- Single-knob navigation
- CenteringCheck®
- (Optional) Automatic wheel width entry
- Dial in exact weight placement
- Space-saving design

Specifications at a Glance:

- Max Width: Up to 20"
- Max Tire Dia: Up to 38"
- Max Rim Diameter: Up to 30"
- Max Tire Weight: 135 lbs.

SWE00

Smart Weight Elite® Wheel Balancers

Key Features at a Glance:

- Touchscreen interface
- Automatic CenteringCheck®
- Hands-free wheel measurement and profiling
- Automatic rim runout and condition check
- TruWeight® guided weight placement
- eCal automatic calibration
- TPMSpecs® on-board vehicle database

Specifications at a Glance:

- Max Width: Up to 20.5"
- Max Tire Dia: Up to 44"
- Max Rim Diameter: Up to 30"
- Max Tire Weight: 175 lbs.

ALIGNMENT RACKS

*Powerslide and Inflation Station capable- No more pins, just push a button to lock/unlock turn plates.

Hunter Four Post Lifts

Features at a Glance:

- Open front and rear access
- Built-in slip plates standard
- Stainless steel turnplates standard
- Two moveable worksteps standard

Hunter Scissor Alignment Lifts

HD TIRE CHANGERS

Heavy Duty Tire Changers

Hunter's heavy duty tire changers are easier on your back than bars and hammers. With models optimized for over-the-road tire service, Hunter has a heavy duty tire changer to keep your techs safe and productive.

Key Features at a Glance:

- Tulip-style wheel clamp
- Safe controls
- Roller demounting
- Standard hook

TCX635PHD

Model Numbers:

TCX635HD, TCX635PHD, TCX645HDG2

HD WHEEL BALANCERS

HD Elite Wheel Balancer

The best features of Hunter's Road Force® Elite make servicing heavy-duty bus and truck wheels even easier than before using patented vision system and diagnostic capabilities designed to solve vibration issues.

Key Features at a Glance:

- Measure runout and balance faster than any traditional balancer.
- Eliminate error opportunities with the patented laser vision system.
- Solve vibration problems by detecting and matching the high spot of the tire using the diagnostic load roller.
- Ensure proper centering with patented automatic CenteringCheck®.
- True self-calibration with patented eCal auto-calibration.
- Wheel lift assists up to 500 lb. assemblies and provides proper mounting.

Model Numbers:

HDE30, HDE31, HDE32, HDE33

HD ALIGNMENT

NEW!

Upgraded Software:
Can do light truck
alignment!

High-Definition Cameras

Cameras take accurate and precise measurements with an extra long range of sight.

XL Targets

Extremely durable and require minimal maintenance with no electronics at the wheel feature.

Always Ready

No batteries, cables or wireless signal connection.

Multi-Axle Reading

See live alignment readings from three axles at one time with guided procedures.

Quick Rolling Compensation

Compensate all wheels and capture initial measurements in one motion.

Alignments in Any Bay

Mobile cabinet rolls wherever you need it- no specific bay required.

Adjustable Height

Perform alignments on the floor or on a lift with movable camera beam.
